Attachment "A"

On July 17, 2019, a Volkswagen bearing Mexican License Plate XAA838A was selected for an inspection by Customs and Border Protection Officers (CBPOs) working the outbound lanes at the Hidalgo, Texas, Port of Entry (POE).

The driver of the vehicle, identified as Luis Arnoldo CURIEL-Trevino, was referred for additional inspection and during the inspections seven hundred (700) rounds of 38 Super ammunition and one hundred (100) rounds of 45 Auto ammunition were discovered inside of the vehicle.

Homeland Security Investigations (HSI) Special Agents (SA) responded to the POE and on July 17, 2019, CURIEL-Trevino, under rights advisement and waiver, stated CURIEL-Trevino was recruited to purchase the ammunition by an unnamed co-conspirator, in Mexico, for the unnamed co-conspirator in Mexico.

CURIEL-Trevino stated CURIEL-Trevino received the money to purchase the ammunition and instructions on what ammunition to purchase from the unnamed coconspirator in Mexico and then traveled to the United States to purchase the ammunition.

CURIEL-Trevino stated CURIEL-Trevino knew it was illegal to smuggle ammunition into Mexico and CURIEL-Trevino had previously purchased ammunition for the unnamed co-conspirator in Mexico on at least two (2) occasions.

According to the Department of State, Office of Defense Trade Controls Compliance (DTCC), 38 Super ammunition and 45 Auto ammunition are determined to be defense articles described on the United States Munitions List (USML) and regulated for export pursuant to the Arms Export Control Act (22 U.S.C. 2778).
